

# STEPS TO SAFETY

At Glen Mar ELC, we are following CDC guidance to ensure our space is safe for in-person learning. Starting at drop-off, we take the following steps every day to help reduce the spread of COVID-19.

## STEP 1: Temperature Check at the Door

Each child's temperature must be below 100.4 to join us in-person.

## STEP 2: Answer Health Questions

Staff will ask about your exposure to COVID-19 and whether you or your child is experiencing symptoms.

## STEP 3: Parents Say Goodbye

To reduce the number of people coming in and out of the ELC, staff will walk your child to their classroom.

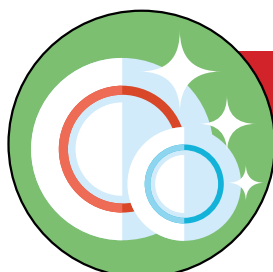

## STEP 4: Practice Handwashing and Good Hygiene

Children and staff wash their hands at the beginning of and throughout the day to stay germ-free. We also practice good hygiene, such as sneezing and coughing into our elbows.

## STEP 5: Keep Our Social Distance

We stay six feet apart during activities like table time, lunch, nap time and more.

## STEP 6: Clean Up!

We sanitize our facilities per CDC guidelines and clean the playground between class usage.
